Description of Other Released Contaminant:

Fluid release from flare

Inspected:

Written Report Received: 2/2/2015

Clean Up Concluded: 1/19/2015

Risk Evaluation:

None

Areal Extent:

Release was not contained; fine mist sprayed over area 20' long x 100' wide

Potential Environmental Impacts:

Light areal spray both on and off location. Will be remediated; no contamination of ground or surface water.

Action Taken or Planned:

Misted oil was found on top of snow 6" snow pack; soak area in snow was approx. 1" deep in some areas. Discolored snow was removed with a skid loader and will be disposed of properly. Spill area will be remediated.

Wastes Disposal Location: Waste soils will be collected and hauled to an approved disposal location - Indian Hills

Agencies Involved:**Updates**

Date: 1/20/2015 **Status:** Reviewed - Follow-up Required **Author:** Washek, Sandi

Updated Oil Volume: 2.00 barrels

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

According to report, oil spray release came off site. Followup required.

Date: 1/29/2015 **Status:** Inspection

Author: Espe, Brady

Updated Oil Volume:

Updated Salt Water Volume:

Updated Other Volume:

Updated Other Contaminant

Notes:

I arrived at the site at 2:28 p.m. The weather was clear, 33 °F with wind from the northwest at 5-10 mph. The snow has melted in the area, but the ground was frozen. The area impacted was on the north side of the well pad in a stubble field. The stubble in the field was knocked down in the area that was cleaned. I was able to talk to company personnel on the site. They will sample the area to show it is cleaned up. More followup required. 47.734017, - 103.770567
